

Pesticide Application Registry Notice

Dear Parent, Guardian or Staff Member:

New Prairie United School Corporation practices Integrated Pest Management, a program that combines preventive techniques, non-chemical pest control methods, and the appropriate use of pesticides with a preference for products that are the least harmful to human health and the environment. Applications of pesticides are made only when deemed necessary to control a pest to and after trying other means to control the problem. The term “pesticide” includes insecticides, herbicides, rodenticides, and fungicides.

We are establishing a registry of people who wish to be notified prior to pesticide applications. To be included in this registry, please complete the attached form and submit it to your child’s school office or the New Prairie United School Corporation Superintendent’s Office at 5327 N. Cougar Road New Carlisle, IN 46552.

Please include me in the notification registry. I understand that if there is an immediate threat to health or property that requires treatment before notification can be sent out, I will receive notification as soon as practicable.
